

Announcing Live Internet Bidding

Great news for our Buyers! We are proud to announce we will begin streaming our LIVE AUCTIONS via the Internet beginning May 3rd. This new service will allow you to view and bid from the comfort of your office or home if you choose. Pictures, descriptions, and a live camera will keep you as involved as if you are actually there! Bidding with the on-site buyers is as easy as a click of a button.

As an on-line bidder, you will have an abundance of information that will aide you in the purchase of inventories you require.

- The upper left screen outlines the current vehicle being sold, which includes Year/Make/Model, VIN, Odometer, and Damage.
- The upper right screen is a live streaming video feed attached to our auction bus that focuses on the vehicle being sold.
- The lower portion of the screen outlines the current bid amounts, including information of whether the bid is on-site or on-line via the internet. Bidding is accomplished by a simple click of the "BID" button to submit your bid. It's that simple!

If you have any questions, don't hesitate to call us.
